The California Asphalt Pavement Association is the only organization that focuses exclusively on asphalt pavements in California. Member companies include asphalt producers, refiners, manufacturers and other equipment and service providers that made up a dynamic industry in California. Membership in CalAPA is a "company" membership — in other words, every employee of a member company is considered a member and can participate in association events, receive CalAPA news and information, enjoy member-only discounts, etc.

There are many different ways to interact with the association and your industry peers. A few are highlighted here. For more information, visit the CalAPA website — www.calapa.net — or call (916) 791-5044.
