- ☑ New technology & equipment

Your instructors:

Instructors of CalAPA classes are acknowledged experts in their field who have also demonstrated an ability to engage trainees with real-world examples drawn from experiences on actual projects. Curriculum is constantly updated and reviewed by the CalAPA Technical Advisory Committee. The training program is under the direction of CalAPA's Director of Technical Services, Brandon Milar, P.E., a noted materials engineer with many years of experience in the public and private sector.

The California Asphalt Pavement Association presents:

WE BRING THE KNOWLEDGE TO YOU! **CALAPA OFFERS A CONVENIENT & COST-EFFECTIVE WAY TO TRAIN YOUR PERSONNEL – A HOSTED CLASS AT YOUR FACILITY!**

Significant changes to asphalt composition, mix design, testing, technology and best-practices in paving have occurred in recent years. What you don't know could cost you! CalAPA asphalt classes bring you the latest information from noted expert instructors in a convenient setting – your own facility!

You asked and we listened. You want a convenient and affordable training opportunity on an increasingly complex topic – asphalt. CalAPA is pleased to offer our popular half-day technical and practical instruction in a “hosted” format, where we will bring the instructors to your facility

at a date and time that is convenient to you. You can save on travel costs, ensure your personnel are receiving consistent and relevant instruction and document the training via CalAPA-provided sign-in sheets, workbooks, tabulated evaluations and handsome completion certificates. Class hosts, who may partner with others, must guarantee a minimum number of attendees in the classes, and will receive a discounted rate from the retail price of attending a regular CalAPA class advertised to the public. **This offer is open to public agencies and CalAPA members only.**

COST: Contact CalAPA for group discount pricing.

DATES: Contact CalAPA to schedule a hosted class on a date that is convenient to you (subject to instructor availability).

NOTE: Hosts will be responsible for providing minimum number of attendees for a discounted “group rate.” CalAPA will accept additional attendees on a sliding scale based on venue size. CalAPA will not issue refunds for “no-shows.” Contact CalAPA for additional information on CalAPA and host expectations.
